

## Open Submission

7Studio is a consortium of full-service advertising agencies with a global footprint and client portfolio. Based in Miami and offices in Sao Paulo and Buenos Aires. 7Studio offers a wide range of services to our clients, including strategy, branding, customer insights, omnichannel advertising, creative development & production, and account management services.

We are a collective of independent agencies working under one roof to serve a global portfolio of B2B and B2C brands. We join forces to better respond to client pitches with real-life solutions that do not rely on the specific strengths of just one agency and execute using low-cost production hubs to deliver maximum cost efficiency.

We are looking for a variety of Creative and Business development roles to manage and execute creative and production projects from concept creation to completion (and to get the clients lined up!) Our Biz Dev group is already out and about chatting with current and prospective clients, while the Creative group is responsible for developing and transforming concepts into creative solutions, interactive with other members of our dynamic teams and partners (distributed among several countries) and ensuring client objectives are achieved.

To be successful as a 7Studio Creative Team Member, you will be involved in the creation of concepts and strategies that are insightful, relevant, innovative, and effective across every marketing tactic, from social to experiential. We are looking for creative powerhouses with the ability to create, motivate, inspire, and deliver the design and production of best-in-class solutions across different platforms while taking advantage of cutting-edge technologies.

This is an opportunity to be an early member in an innovative concept that aims to revolutionize the slow, inefficient, and costly process in place for creative operations. Real collaboration, cocreation and partnership, taken to the next level.

Types of roles we're looking out for include, but not limited to:

- Associate Creative Strategy Director
- Account Director
- Associate Art Director
- Creative Project Manager
- Senior Designer
- Junior Designer
- Creative Operations Manager
- Creative Strategists
- Creative Copywriter (English and/or Spanish and/or Portuguese)
- Animation & Motion Graphics Designer
- Video Producer (editing, postproduction, motion and After Effects)
- Agency Business Development Director
- Business Development Manager
- Business Development Executives
- Interns for all roles/functions listed above (we're serious about teaching the ropes)

If you are in Miami or Sao Paulo, get in touch, let's have coffee! 7Studio positions are fully remote, but our main operation is in these cities, so give us a holler.

Send your resume and portfolio (if available) to [hr@7studioco.com](mailto:hr@7studioco.com) for consideration; we'll be in touch!
